

Project Name	Main Recipient	Project Description	LGF Grant (£)	Total Paid to date (£)	Current Position
Telford Growth Package	Telford & Wrekin Council	The Telford Growth Point Package is a series of infrastructure improvements aimed at creating jobs and bringing forward new houses across the Borough.	£ 13,900,000.00	£ 13,900,000.00	Spend Complete - Outputs and Match Funding are being claimed.
Hereford City Centre Transport Package	Herefordshire Council	The Hereford City Centre Transport Package (HCCTP) is an integrated package of schemes and consists of the following key elements: • A new City Link Road (CLR) integrated with complementary measures to support the delivery of a major regeneration scheme; • Improvements to the existing public realm and the facilities for walking, cycling and public transport modes; and • A new Transport Hub at Hereford railway station.  The key objectives of the HCCTP are to support economic growth, improve accessibility and encourage active travel in line with the adopted policies of Herefordshire Council, the Marches LEP and Central Government. In particular the package of measures will: • Enable the delivery of the Edgar Street Grid (ESG) regeneration area, a major mixed-use development, and support delivery of housing, particularly affordable housing within the city; • Improve the public realm and create better walking, cycling and public transport infrastructure thereby better integrating new development with the historic city core; • Enhance links between the railway station, the city centre and the ESG regeneration area; • Improve east-west access between the A465 and A49(T) north of Hereford city centre; • Improve access to, and interchange infrastructure at, Hereford railway station	£ 16,000,000.00	£ 16,000,000.00	Spend Complete - Outputs and Match Funding are being claimed.
Telford Eastern Gateway	Telford & Wrekin Council	The Eastern Gateway project is predominately focused at unlocking job creation at the strategic employment site - Telford 54. This includes the upgrading of the M54 Junction 4 to reduce congestion and provide agglomeration benefits between the i54 and T54 sites as well as utility infrastructure works at the T54 site itself.	£ 3,600,000.00	£ 3,600,000.00	Spend Complete - Outputs and Match Funding are being claimed.
Telford Bus Station	Telford & Wrekin Council	The Telford Bus Station project aims to unlock new retail development, creating jobs and supporting the regeneration of Telford Town Centre as well as providing an enhanced public transport interchange.	£ 1,300,000.00	£ 1,300,000.00	Spend Complete - Outputs and Match Funding are being claimed.
Shrewsbury Integrated Transport Package	Shropshire Council	The scheme consists of the following package of measures: 1) Junction improvements at four strategic junctions on the Shrewsbury inner relief road and on the main links to the town centre from this corridor; 2) Implementation of further phases of the SCOOT network (to include VMS); 3) Traffic management measures in the historic and commercial town centre; 4) Public realm enhancements to the commercial area (with a focus on Pride Hill); 5) Enhancements to pedestrian and cycle links; and 6) Improved pedestrian wayfinding within and around the 'river loop'.  Core objectives include: - Contributing to economic growth; - Alleviating congestion on the inner relief road; - Reducing the volume of traffic flows through the historic and commercial centre; - Encouraging the use of sustainable modes of transport; and - Improving air quality in the town centre.	£ 6,000,000.00	£ 6,000,000.00	Spend Complete - Outputs and Match Funding are being claimed.
Oxon Link Road	Shropshire Council	The scheme consists of the following key activities: 1) Construction of a new single carriageway link road between Churncote Roundabout and the B4380, with associated infrastructure e.g. pedestrian bridges and at-grade crossings; 2) Inclusion of two at-grade junctions along the new single carriageway link road and a new roundabout on the B4380 to accommodate the OLR; and 3) Severing of Welshpool Road to strategic through-traffic.  Core objectives include: - Improving resilience in the local road network; - Delivering Core Strategy housing targets; - Opening up employment land, creating jobs and supporting economic growth and competitiveness; - Reducing road traffic accidents; and - Allowing the form and function of Welshpool Road to be altered in favour of more sustainable modes of transport.	£ 4,200,000.00	£ 2,647,681.00	The project continues to deliver against its objectives, with Outputs being recorded in Q4 2018/19
<b>Skills Capital</b>					
GD 1 skills project	Herefordshire and Ludlow College (Holme Lacy) HGTA SBC Training Marches Centre for Manufacturing & Technology (MCMT) CIC HGTA and Herefordshire and Ludlow College Shrewsbury Colleges Group	Growth Deal capital funding was allocated to address the training needs of key sectors in the Marches by providing learning environments which are fit for purpose and equipped with up-to-date equipment and machinery similar to that used in modern workplaces	£ 3,245,498.00		Spend Complete - Outputs being claimed

Skills Unallocated Pot			£ 270,032.83	£ -	
<b>Growth Deal 3</b>					
NMITE	NMITE	This project is to support the establishment of Nmite a brand new engineering based University in Hereford. The new University is being established from scratch and is due to commence the delivery of courses by the end of 2019. A key requirement to deliver courses is having appropriate teaching and learning space for students to learn in.	£ 8,000,000.00	£ -	Contract is currently being developed between all partners.
Flaxmill	Historic England	The project is part of a staged approach to regenerating the 2.7ha Flaxmill Maltings site, which contains 8 listed industrial heritage buildings, including the first iron-framed building in the world, and the wider development site.  This project (forming part of Stage 3 - Wider Site Development) will remediate 2 hectares of brownfield land adjacent to the historic Flaxmill Maltings complex, and the provision of the necessary infrastructure to unlock the provision of new residential units and businesses which in turn will help regenerate one of the most deprived areas in the country.  The Growth Deal funding will enable the construction of a bat house, providing a dedicated and protected roost site for a variety of bat species present on site, improve access to the site by upgrading a roundabout on the A5191 highway from a mini to a midi roundabout, construct an access road into the site which will form the trunk road from which future housing development will branch from. All of the work carried out will be de-risking the site for future development partners.	£ 1,920,000.00	£ 115,000.00	The project continues to deliver against its objectives.
Hereford Centre for Cyber Security	University of Wolverhampton	The new Centre will offer high quality research facilities through the University's Cyber Security Research Institute as well as providing office space for the cyber businesses and advanced training facilities designed specifically to tackle threats in cyberspace. Cybercrime currently costs the UK between £18 billion and £27 billion a year. 65.4% of all large UK companies reported a breach in the last year and threats to cyber security are persistent and constantly evolving. The University has already formed strong, collaborative relationships with key companies to engage with cyber research, training programmes and enterprise development and has a number of research teams associated with the development of cyber security. The strategy is to bring together our collective expertise in a centre of excellence with partners both in the UK and internationally. The new Centre will organise, facilitate and support the development of cyber security on a global scale whilst at the same time present opportunities to develop high quality academic, vocational educational and training programmes to address the digital skills shortage being experienced nationally. It will provide innovation workspace for small and start-up businesses to operate from, offering consultancy support from the University and shared facilities including laboratory space and training rooms. It will offer a range of specialist facilities for the cyber sector including server space and high speed broadband as well as research and development laboratory space. The new Centre will stimulate an enhanced base of businesses engaged in cyber security solutions which will improve insight for businesses on the challenge faced in the future and drive up levels of innovation activity across the Marches.	£ 2,820,000.00	£ 904,684.07	The project continues to deliver against its objectives.
Newport Innovation & Enterprise Park	Telford & Wrekin Council	The Newport Innovation and Enterprise package will create serviced employment land including an Enterprise and Science Park with direct links to the Harper Adams Centre for Innovation. It will attract investment from high tech businesses, stimulating complementary research and development activities and encouraging supply chain growth across a wide range of companies engaged in new agricultural technologies and with links to Telford's strong advanced manufacturing sector.	£ 6,364,000.00	£ 538,401.00	The project continues to deliver against its objectives.
