|-----|--|--------|
| 1.  | Welcome and introductions  |        |
|     | Diffusion and assessments to the second state of the Manshee Consult like Steering Consult (MCL)   |        |
|     | PH welcomed everyone to the meeting of the Marches Growth Hub Steering Group (MGH SG) and introduced new members to the group. Each member gave a brief introduction. PH |        |
|     | gave apologies for members unable to attend the meeting.   |        |
|     |  |        |
| 2.  | Declarations of Interest   |        |
|     | Steering Group Membership  |        |
|     | PH asked that all declarations are due to be refreshed and distributed the forms to those  | All    |
|     | who need to complete them. The forms should be completed and returned at the next  |        |
|     | Steering Group meeting.  |        |
|     | Any members not present will be sent the form electronically by KJA for completion in  | КЈА    |
|     | readiness for the next meeting.  |        |
| 3.  | Notes of last meeting and follow up actions  |        |
| 5.  | The Group agreed and signed off the Minutes from 01/06/17 meeting. One action remains  |        |
|     | outstanding which is for YS to visit the physical hubs. This has been delayed due to   | YS     |
|     | completion of the BEIS 6 monthly report. This will be completed in due course.   |        |
| 4.  | Marches Growth Hub Policy  |        |
|     |  |        |
|     | - BEIS Marches Growth Hub Bi-Annual Report (April 2017-September 2017)<br>YS outlined the content of the report and asked for feedback and comments to ensure we are     |        |
|     | capturing all relevant information for BEIS.   |        |
|     |  |        |
|     | GH added that this demonstrates what we have achieved over the last 19 months and helps  |        |
|     | makes the case for the continuation of the Growth Hub. Good collaboration is shown by FSB  |        |
|     | & Chambers of Commerce, and we are very fortunate to have the support of partners. It is   |        |
|     | felt that the relationship between partners is strong with FSB now sponsoring some hot desks   |        |
|     | and the other relationships between DIT & IPO also remaining strong.   |        |
|     | GH continued to say that BEIS are making a case for continued funding to target scale up   |        |
|     | businesses with more than 5 employees and with a turnover of between £500K-£1M. Having   |        |
|     | recently attended the LEP Network workshop in London, it was clear that the Government   |        |
|     | see the challenges faced. Greg Clark, Secretary of State for BEIS will be producing a White  |        |
|     | paper in November outlining the potential for future funding and what form that will take.   |        |
|     | JT asked if there was any benchmarking available? in response to this, PH confirmed  |        |
|     | benchmarking is very difficult to do as the LEPs differ greatly from area to area. SP also added   |        |
|     | that no benchmarking currently exists and even Government struggle with this exercise.   |        |

| The Group concluded that it is a good detailed report.   |   |

| 5. 2017/18 Marches Growth Hub Update   |   |
| - Spend to Date  |   |
| YS reported £77,565.47 spend to date. There was a discussion around underspend, what the Growth Hub funding is being used for and the importance of measuring outputs and outcomes linked to growth hub events.  |   |
| YS & AB explained the reasons for the growth hubs rescheduling some events from Q1/Q2 to Q3/Q4.  |   |
| The discussion led to the recording of event outcomes which is very resource heavy and not always possible. Comments were received about service level agreements and the need to capture this data.   |   |
| - Enquiries/referrals – physical hubs and virtual hubs   |   |
| YS presented the KPI data briefly as it was going to be included in the MGH Evaluation & Review presentation later in the meeting.   |   |
| FM asked why there was no customer satisfaction data from MGH – Herefordshire. In response, YS confirmed that this subject has already been flagged and discussed at the last MGH Operational Group meeting. The discussion also included best practice at capturing this data and that progress will continue to be monitored. YS confirmed follow-up with MGH - Herefordshire. | 5 |
| 6. Marketing and Social Media / Google Analytics   |   |
| AB gave an update on progress since the last meeting. There has been a drop in August but this was expected. The comparison from 2015-2016 shows continuous improvements, for example growth in Twitter followers. With regards to Facebook, better results are evident from paid promotions due to being able to choose the target market.                                      |   |
| <ul><li>Events</li><li>The business event in Hereford was well attended, but the workshops not so.</li></ul>   |   |

|    | search analytics.  |        |
|    | GH asked if there is a direct correlation between Facebook and visitors to the website? AB confirmed that she has seen a spike since the Business Growth Programme (BGP) was launched and anything to do with new funding sends a spike in the results. GS confirmed the added value of social media and the need to increase this.  |        |
|    | There was a discussion around social media and its use amongst partners and their clients.   |        |
|    | A further discussion was held around the use of Eventbrite and how some potential clients are nervous to use it due to sharing personal details and possible data protection issues. AB confirmed that not all events are though this channel and that it is used by the Growth Hubs, Local Authority partners and the Chamber of Commerce as a cost-effective way of managing event bookings. |        |
